

# SendSites Integration Guide

**Value Drivers:** *Group Bookings | Event Bookings | Room Bookings*

**Product Tiers:** *SalesHub Starter | SalesHub Pro*

---

## Overview

Take your SendSites proposals to the next level by embedding immersive virtual tours of your meeting and event spaces. Using **SalesHub Starter** or **Pro**, you can help planners visualize your venue in a dynamic, interactive format that builds confidence, accelerates decision-making, and differentiates your proposal from competitors.

### Benefits:

- **Bring Proposals to Life:** Elevate your SendSites proposals with immersive virtual tours that showcase your meeting spaces in a dynamic, interactive format.
  - **Help Planners Visualize Instantly:** Virtual Tours give planners a realistic sense of layout, flow, and ambiance—making it easier to picture their event in your space.
  - **Stand Out from the Competition:** Immersive visuals create a more personalized and memorable experience that sets your proposal apart and keeps you top of mind.
  - **Reduce Shopping Around:** When planners feel confident and connected to your space, they're less likely to keep exploring other options—moving faster toward a decision.
  - **Accelerate Group Bookings:** With fewer questions and stronger engagement upfront, planners are more likely to inquire, commit, and book sooner.
-

# Step-by-Step: Enhancing Your SendSites Proposal

## Step 1: Select the Right Assets

Choose immersive visuals that align with the spaces typically showcased in your proposal templates:

- Ballrooms, meeting rooms, breakout spaces
- Ceremony and reception venues (if applicable)
- Pre-function spaces or outdoor event areas

## Step 2: Confirm Asset Assignment

- Identify which proposal templates (by name or team) should feature each immersive asset

## Step 3: Contact Your Customer Success Manager

- Share with your CSM:
  - The list of selected immersive assets
  - The proposal templates each asset should be added to
- Your CSM will submit a formal request to the SendSites team on your behalf and copy you for tracking
- Once the SendSites team has added the immersive content, they will notify you

---

## Recommended Content Types

Content Type	Why It Works
Enhanced 3D Models	Let planners “walk through” the meeting space
360° Photos	Offer a highly realistic, detailed view of spaces
CGI Setups	Visualize event layouts without having to stage your room during the photoshoot

These formats help planners visualize experiences clearly and confidently.

## Placement Best Practices

- Whenever possible, use a pop-up modal to keep the user on your website. This ensures a faster, smoother experience
  - Avoid opening new tabs or embedding the experience directly on the page, as these methods can slow down load times and disrupt the flow of engagement
  - Use consistent CTAs ("Take a Virtual Tour") to indicate interactivity
- 

## Make Sure Your Virtual Tours Work Seamlessly

To ensure your platform content loads quickly and works smoothly on your website, we recommend sharing a quick list of approved web domains with your IT team. This helps make sure your virtual tours, booking links, and interactive experiences display the way they're intended—without being blocked or slowed down by network filters.

One key domain to include is <https://visitme.co>, which powers many of your tour links.

You can find the full list of recommended domains to allow [here](#).
